

ICT in Personal Finance and Shopping

SUBJECT : Introduction to Information and Communication Technologies

COURSE CODE : IT-1502

BATCH : 2025/fall

PREPARED BY : Engr. Motia Rani

Department of Cyber Security

Introduction

- ICT plays a major role in simplifying financial transactions and online shopping.
- Digital finance tools allow fast, secure payments.
- E-commerce platforms make shopping easy and accessible.
- ICT has transformed how people manage money and buy products.

Online Banking & Financial Management Tools

- Mobile wallets and digital payment systems

Features:

- Money transfers
- Bill payments
- Mobile top-ups
- Secure transactions

Benefits:

- Financial inclusion
- Easy access for unbanked populations
- 24/7 availability

ICT in Personal Finance

- Digital wallets and mobile banking apps enable cashless transactions.
- Users can send, receive, and store money securely.
- Provides financial transparency and easy record-keeping.
- Supports bill payments, mobile recharge, and online purchases.

Online Banking & Financial Tools

1. JazzCash

- Mobile wallet with money transfers
- Utility bill payments
- QR payments & ATM withdrawal

Online Banking & Financial Tools

2. Easypaisa

- Pakistan's most widely used digital wallet
- Savings, insurance, and bill payments
- Merchant payments and money transfers

Online Banking & Financial Tools

3. Zong PayMax

- Mobile wallet and transfer service
- Supports remittances, bill payments, and shopping

Online Banking & Financial Tools

4. 1Link & MNET

- National payment networks
- Enable ATM switching, inter-bank transfers, and digital payment security

Online Banking & Financial Tools

5. Keenu Wallet

- Digital payment and POS solution
- QR & contactless payments
- Used by many retail stores

Benefits of Online Financial Tools

- Fast and secure cashless transactions
- 24/7 access to accounts
- Convenient bill payments and shopping
- Reduces need for cash handling
- Improves financial record keeping

Introduction to E-commerce

- E-commerce means buying and selling products online.
- Customers can shop anytime, anywhere.
- Offers a wide range of choices and competitive pricing.
- ICT makes product search, payment, and delivery seamless.

Popular E-commerce Platforms

1) Daraz.pk

- Pakistan's largest online marketplace
- Wide product categories
- Discounts, vouchers, and online payments

Popular E-commerce Platforms
